

I Lawrence King Jr support XM radio. This is the best music,talk show,news, weather and traffic information i ever had access to. It's very accurate and keeps you up to date. Tuesday May 12 me and my wife were out going shopping, we were lisenting to station 214 traffic & weather, a tornado warning came across the air. It said (Campspring) PG County was under a tornado watch. We turned around a went home. XM is very reliable. I don't what i would do with out it now.
